  MA Economics
- **University Paris 1 Panthéon-Sorbonne**, 2014
  BSc Econometrics

Software

Author

OPERA ecosystem

- opera-eco: package, test and skill manager for the OPERA ecosystem
- forecast_evaluation: package for evaluating macroeconomic forecasts
- forecast-realtime: real-time orchestration of forecasting models
- forecast-combo: forecast combination
- news-decomp: analysis of forecast levels and revisions
- bvar: Bayesian VAR tools for forecasting
- nowcast-midas: mixed-frequency nowcasting with MIDAS

R

- BayesMultiMode: Bayesian mode inference in R (CRAN)

Contributions

- LiNGAM: discovery of non-Gaussian linear causal models

Languages

French (native), English (fluent).

Academic annex

Publications

- *Risky news and credit market sentiment*
  with Leif Anders Thorsrud
  Journal of Economic Dynamics and Control, 2026
- *BayesMultiMode: Bayesian mode inference in R*
  with Nalan Basturk, Jamie Cross, Peter de Knijff, Lennart Hoogerheide and Herman K. van Dijk
  Journal of Statistical Software, 2026
- *Asymmetric uncertainty: nowcasting using skewness in real-time data*
  International Journal of Forecasting, 2025
- *Bayesian mode inference for discrete distributions in economics and finance*
  with Jamie Cross, Lennart Hoogerheide and Herman K. van Dijk
  Economics Letters, 2024
- *Temporal disaggregation of overlapping noisy quarterly data: estimation of monthly output from UK value-added tax data*
  with Martin Weale
  Journal of the Royal Statistical Society (Series A), 2020
- *The financial foundations of the productivity puzzle*
  with Jagjit S. Chadha and Amit Kara
  National Institute Economic Review, 2017

Working papers

- *Learning from forecast errors: the Bank's enhanced approach to forecast evaluation*
  with Raphael Abiry, James Hurley, Paul Labonne, David Latto, Harry Li, Andre Moreira, Joseph Oyegoke and Sumer Singh
  Bank of England Macro Technical Paper No. 6, 2026
- *Flexible Negative Binomial Mixtures for Credible Mode Inference in Heterogeneous Count Data from Finance, Economics and Bioinformatics*
  with Jamie Cross, Lennart Hoogerheide and Herman K. van Dijk
  R&R *Journal of Econometrics*

Peer-review activity

International Journal of Forecasting, Oxford Bulletin of Economics and Statistics.
